Thinking some more about these issues...

QUESTION 9 (PAIRED ARGUMENT)

9. First, which ONE of the following statements is closer to your view on this issue:

Families should be allowed to receive their tax refund payment monthly instead of waiting to file their tax return. Monthly refunds would allow families to keep more of what they earn, better budget their expenses, and help offset the rising costs of groceries, childcare and education.

...or...

Families should only receive their tax refund payment when they file their tax return. Monthly refunds would become a form of welfare that would create an incentive for people not to work.
